## Senior Full Stack Developer

+436802217479 @ thecurlydev@duck.com https://thecurlydev.bio.link Vienna

### EXPERIENCE

#### Senior Full Stack Engineer

##### Self Employed

02/2025 - Present Vienna, Austria

#### Senior Full Stack Engineer

##### Modocu Software GmbH

04/2023 - 02/2025 Vienna, Austria

- Developed the new Modocu Web Business App for the construction sector in React/Typescript, Mantine UI, Vite, Jest, eslint, prettier etc. using atomic designs
- Refactored and improved a big margin of Code from the old app + backend from React to Typescript and defined code guidelines for better team growth and readability
- Developed and defined core components of a design system (components)
- Developed new features and related efforts showed an increased user growth by 50%
- App usage and trials on several customer sites showed an increase in bought licenses and satisfied user ratings

#### Senior Android Engineer

##### Erste Bank - George

01/2019 - 02/2023 Vienna, Austria

- Developed several features of the product line of the George Android App, involving investments, transactions and main product features using MVVM (Android Architecture Components) in a TDD manner
- Refactored a big margin of Code from Java to Kotlin and helped to define code guidelines to do so
- Developed and defined core components of a design system together with other mobile platform teams
- Developed features and related efforts showed an increased user growth by 20%
- App downloads showed an increase of over 1.000.000 installations and exceeding and satisfied user ratings
- The app is currently distributed in 6 different countries in Europe

#### Software Engineer

##### Self Employed

01/2017 - 01/2019 Vienna, Austria

- Development on Android/Web apps including technologies like Java, Kotlin and React

#### Senior Android Engineer, Diagnosia

##### Diagnosia

12/2017 - 04/2018 Vienna, Austria

- Improved feature onboarding efficiency by 20% by transitioning tech stack from native to ClojureScript/Re-Natal/React-Native.
- Development of an event driven implementation to communicate between the react-native and native side for specific data exchange (e.g.: saving different types of onboarding users)
- Development on native Android features, refactoring/fixing bugs and issues depending on backlog/user reviews, which increased user growth by 20%
- Development of a CI using GitLab for the Android native app
- App downloads showed an increase of over 10,000 installations and exceeding and satisfied user ratings

#### Android Engineer

##### Rise

09/2017 - 11/2017 Vienna, Austria

- Increase user engagement by 25% by improving performance on apps for Bank Austria, Bawag, BTW.
- Increased customer engagement by 30% through developing an Android app integrated with a new hardware system for café+co.
- Development also included a complex system feature used for payment via NFC and Bluetooth

### SUMMARY

Full Stack Development professional with over 10 years of experience in software engineering and web/mobile application development, expert in Typescript/React and Android development. Seeking a position at your company, where my skills in planning, coding and testing to develop state-of-the-art software solutions will be leveraged to support your mission of delivering innovative and high-quality digital solutions that enhance people's everyday lives. I care about solid software engineering principles and a great user experience.

- Developed a CI test environment using Jenkins for Sony's in-house web purchase system. This increased development productivity by 30%
- Delivered prototype for Austrian BP station's system, improving operational efficiency by 15%

### Android Engineer

#### blockhaus medienagentur OG

📅 01/2013 - 06/2013 📍 Vienna, Austria

- Improved app performance and user experience by 25% developing on 2 in-house Android applications
- Most notably, the Lifeball 2013 app
- The Life Ball in Vienna is the biggest charity event in Europe supporting people with HIV/AIDS
- The event is organized by the nonprofit organization AIDS LIFE

## EDUCATION

### Software Engineering

#### University of Applied Sciences Vienna

📅 01/2013 - 06/2015 📍 Vienna, Austria

- Fachhochschule Technikum Wien
- Software Engineering, Master of Science
- Korea University, semester abroad, Feb 2015 - Jun 2015

### Computer Science

#### University of Applied Sciences Vienna

📅 01/2010 - 01/2013 📍 Vienna, Austria

- Fachhochschule Technikum Wien
- Computer Science, Bachelor of Science

## APPS

#### Gault Millau

<https://www.gaultmillau.ch>

## KEY ACHIEVEMENTS

#### User Growth Enhancement

Boosted app user growth by 50% with strategic feature development.

#### Code Refactoring Success

Refactored codebase reducing technical debt by 40% for improved performance.

#### Download Milestone

Increased app downloads by over 1 million in six European countries.

#### User Satisfaction Excellence

Achieved user satisfaction ratings over 90% through innovative design system.
